DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 rejected under 35 U.S.C. 102(b) as being anticipated by Hatular (US 6,184,660). The reference discloses a converter 24 received power from a battery 22 when the battery is made available to the circuit (see column 5, lines 23-26) and when the external power 42 is made available, it uses to power the converter and the charge the battery (see column 5, lines 55-60 and 65-66). The circuit includes switches 62 to regulate between charge and non-charge modes.

Allowable Subject Matter

Claims 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 7-22 are allowed over the prior art made of record.
